**CDM Further Optimizes Custom and Value-Added Cable Assembly Services  
For the Railroad Industry**

***Heavy Duty, Harsh Environment Assemblies Support  
Train Control, Communications, and Power Transmission Systems***

Turnersville, NJ, December 16, 2015...[CDM Electronics](http://www.cdmelectronics.com/), a premier authorized distributor of electronic connectors and cables, now provides an expanded range of [custom and value-added](#) RF coaxial cable assemblies and power jumper cable assemblies to meet the heavy duty, harsh environment requirements of the U.S. and Canadian freight and rail passenger industry. These new customization capabilities and value-added services are designed to optimize the efficiency and safety of rail-specific connectivity, as well as to help accelerate railroad industry manufacturers' time-to-market. Assemblies are manufactured in CDM's Turnersville, NJ production facility which is certified to ISO 9001:2008 and AS9100C, as well as ICP-WHMA-620 and J-STD-001.

Utilizing in-stock components and cables from leading manufacturers, CDM's custom RF coaxial cable assemblies, Ethernet cable assemblies, and power cable assemblies are employed in a wide range of commercial, industrial, train control, communications, and power transmission applications. They are used in systems providing critical locomotive and power car control, car control/ communications, communications-based train control, Automatic Train Control (ATC) and Positive Train Control (PTC), door controls and indications, passenger information systems and Wi-Fi, dynamic brake commands and indications, along with conventional and "smart" signaling. The comprehensive offering of value-added services comprises design and logistics, CAD capabilities, bar coding, labeling, laser marking and serialization.

CDM further supplies off-the-shelf interconnect solutions serving the railway market. These products include network cable assemblies, communication components, power supply cable assemblies, antennas

and connectors. The company additionally manufactures custom and value-added interconnect cable assemblies for the commercial, telecom, medical, industrial and alternative energy sectors.

CDM is an authorized stocking distributor of components and bulk cable from Amphenol PDC, Binder, Conec, Eaton/Cooper Interconnect, EZ Form and Times Microwave.

### **About CDM**

For over 20 years, [CDM Electronics](http://www.cdmelectronics.com) has delivered interconnect product and cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical cable assembly, including custom cable assembly, military cable assembly, power cable assembly, and box builds. The company's AS9100 Certified headquarters is in Turnersville, NJ. Regional offices are located in Irvine, CA, Madison, AL, Plano, TX and Williamstown, NJ.
