**CDM's New Manufacturing and Distribution Facility
Supports Supply Chain Optimization**

Turnersville, NJ, June 3, 2019...[CDM Electronics](http://www.cdmelectronics.com/), a premier authorized distributor of electronic connectors and cables to the world's leading aerospace, military, telecom, automotive, industrial, railway, commercial, and alternative energy providers, announced the opening of a new 9,000 square foot manufacturing and distribution center in Turnersville, NJ. The new location functions as a manufacturing facility for value-added [cable assemblies](#), including [RF cable assemblies](#), [military cable assemblies](#), [power cable assemblies](#), and box builds. It also supports warehousing and order fulfillment for over 90,000 RF interconnect products, and 365,000 feet of low-loss and specialty coaxial cable. The location is ISO certified and staffed by technicians accredited to IPC/WHMA-620 and J-STD-001 standards

Configured from the ground up, the state-of-the-art facility employs the latest manufacturing, warehousing, inventory management, materials handling, and storage requirements to help OEMs cost-effectively speed time to market. It moreover houses onsite quality testing, which ensures adherence to the industry's highest standards, as well as convertible manufacturing cells that are reconfigurable within an hour to accommodate an array of builds. To further expedite shipping, the new location features unique specialty storage systems designed to promote fast and easy deployment of coaxial cable bulk spools.

"CDM's new manufacturing and distribution facility provides the expanded throughput and capacity needed to meet the growing demand for our RF interconnects, specialty coaxial cable and value-added cable assemblies, said Dawn Lochner, General Manager, at CDM. "We are extremely proud of our new location as it streamlines our operations while maximizes our ability to offer the optimal solutions to the supply chain needs of our customers".

About CDM

For over 25 years, [CDM Electronics](#) has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military cable assembly](#), [power cable assembly](#), and box builds. The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. Regional offices are in Irvine, CA, and Plano, TX.
