CDM Electronics Will Remain Open to Continue Providing Essential Services Throughout COVID-19 Emergency Response

CDM Electronics today announced that they will remain open operating under normal business hours, to continue providing essential services per a U.S. Department of Homeland Security (DHS) released advisory guidance.

CDM maintains their Global Headquarters along with distribution and manufacturing facilities in New Jersey, which has a Shelter-in-Place order requiring citizens to stay at home unless they are involved in essential businesses or essential infrastructure operations. CDM is involved in essential infrastructure operations as they provide materials and services to the Department of Defense and government-owned/contractor-operated and government-owned/government-operated facilities.

To address the wellbeing of company employees, CDM has required cancellation of all non-essential travel, postponed non-critical meetings in favor of digital meeting alternatives, encouraged increased housecleaning routines and established self-quarantine policies if needed.

CDM will continue to aggressively monitor the status of this global situation while supporting the continuity of the essential supply chain to which we belong.

About CDM

For over 25 years, [CDM Electronics](http://www.cdmelectronics.com/) has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF interfaces. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military cable assembly](#), [power cable assembly](#), and [box builds](#). The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office and distribution facility in Richardson, TX.
