## **CDM Supplier Sumitomo Electrical Interconnect Products**

### **Opens New Manufacturing Facility in California**

CDM Electronics today announced the opening of their supplier Sumitomo's new shrink tubing manufacturing location in San Marcos, California. Sumitomo's facility features new, high-capacity production equipment that will provide an enhanced inventory position for CDM, and assure shorter lead times for nonstandard products. Focus shrink tubing lines at the new production facility will be the long-shelf-life B2 product group (QPL 23053/1 Class 1 and 5 series) and SumiMark imprintable SM3-12 series (which also adheres to QPL 23053/1 Class 1 and 5.) There will also be new manufacturing capabilities for the versatile translucent, extended-shelf-life K (23053/8) shrink tubing series. "Adding manufacturing capacity for CDM's most popular lines of shrink tubing shows Sumitomo's commitment to providing service and support to our mutual customer base" stated Christina Harrison, CDM's Product Manager for shrink tubing and other cable identification systems. CDM has a comprehensive offering of Sumitomo products including new long-life QPL'd and specialty shrink tubing for military aerospace, commercial, telecom, medical and industrial applications. CDM is also a stocking distributor of Sumitomo's military-spec wire connection sleeves, the SumiMark and SumTag identification systems and a full selection of supporting printing supplies.

### **About CDM**

For over 25 years, [CDM Electronics](http://www.cdmelectronics.com) has delivered interconnect products and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF interfaces. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military cable assembly](#), [power cable assembly](#), and [box builds](#). The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office and distribution facility in Richardson, TX.
