### Stainless Steel Angle Adapter Kits for Hanger Applications

1564 PR A

#### PRODUCT DESCRIPTION

Stainless Steel Angle Adapters provide an effective transition allowing the installer to easily secure hangers to solid angle members or in areas where mounting holes are not easily accessible. The 9 ga. stainless steel construction remains corrosion free ensuring long term system integrity throughout extreme weather conditions. The stainless steel set bolt locks the angle adapter to standard tower members or to mounting surfaces less than 7/8" thick. The toothed jaw effectively secures large volumes of coax in heavy wind and ice loading conditions. Three 3/8" tapped holes enable the Stainless Steel Angle Adapter to accommodate hanger types which utilize 3/8" mounting hardware. Stainless Steel Angle Adapter Kits include 10 angle adapters and 10 set bolts.

#### TYPICAL APPLICATIONS

#### SPECIFICATIONS

STAINLESS STEEL ANGLE ADAPTER		
Part #	Description	Kit Qty.
AA-SL	Stainless Steel Angle Adapter Kits	Kit of 10
