## Stainless Steel Snap-in Angle Adapter for Hanger Applications

1563 PR A

### PRODUCT DESCRIPTION

The Stainless Steel Snap-in Angle Adapter provides a durable means for securing coaxial cable to solid angle members or to angle members where pre-punched holes are not easily accessible. The unique design of this angle adapter accommodates snap-in hangers via two 3/4" pre-punched holes. Pre-formed teeth are located at the base of the angle adapters jaw to ensure a high strength application. AA-US angle adapters are manufactured from 304 stainless steel.

### TYPICAL APPLICATIONS

### SPECIFICATIONS

Material Thickness: 3/16"  
Finish: 304 Stainless steel
