Aluminum Feed-thru Entry Panels enable multiple coax runs to enter buildings and shelters. The entry panel supports coax at the entry point and prevents moisture from entering the building. Feed-thru entry panels feature 4" (101.6mm) or 5" (127mm) openings to accept 4" (101.6mm) or 5" (127mm) boot assemblies. They can be used in both interior and exterior wall mounting applications. Each feed-thru entry panel includes #14 stainless steel screws, finishing washers, plastic anchors, and entry port caps. Feed-thru entry panels are manufactured from .080" (2.0mm) aluminum and are powder coated to ensure long term integrity and provide appealing aesthetics.
