Stainless Steel Standard Hangers for Coaxial Cable Applications

1560 PR A (Pg. 1 of 2)

PRODUCT DESCRIPTION

The proven design of the Standard Hanger provides a versatile means for securing individual transmission lines within your wireless system. Integrated cable grippers grip into the coaxial cable's outer jacket providing support in heavy wind and ice loading conditions. The captivated 1/4" tension bolt allows the user to quickly tighten this hanger without fumbling or dropping hardware during the installation process. The Standard Hangers can be purchased with or without mounting hardware. The mounting hardware consists of 3/8" x 3/4" stainless steel slotted hex head bolts, stainless steel toothed washers and stainless steel nuts for quick attachment to a pre-punched tower member or other mounting accessories. Corrosion resistant stainless steel construction ensures long term integrity in extreme weather applications.

TYPICAL APPLICATIONS

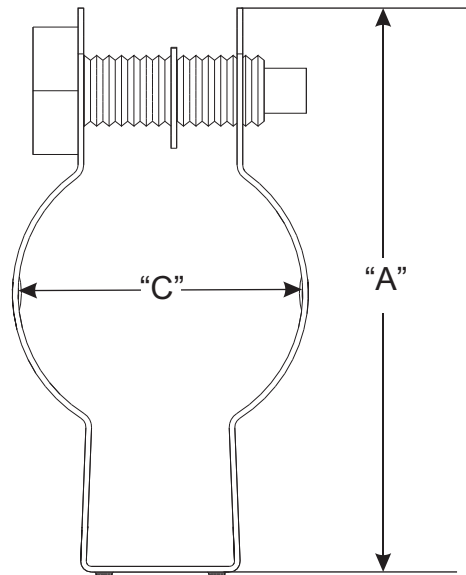

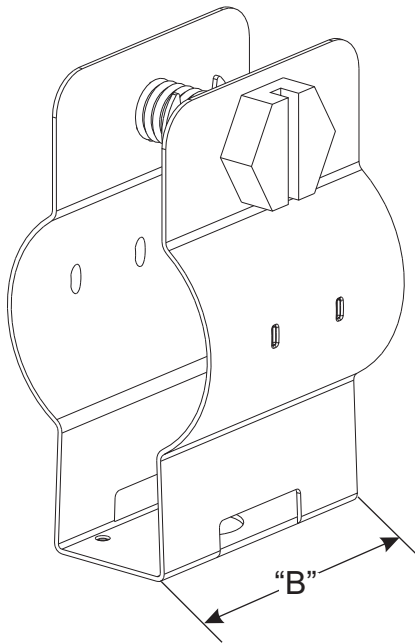

World Headquarters: 358 Hall Avenue, Wallingford, CT 06492 • 203-949-8400, 1-800-867-2629 FAX: 203-949-8423
International Sales: 4 School Brae, Dysart, Kirkcaldy, Fife, Scotland KY1 2XB UK • +44(0)1592655428 FAX: +44(0)1592653162
