CDM Electronics Acquires Second Vertical Machining Center

Turnersville, NJ, June 17, 2022... CDM Electronics has announced the acquisition and startup of a second Haas VF-2 Vertical Machining Center located at their 110 American Boulevard distribution and machine shop location.

The additional VF-2 will work in tandem with the first unit and be the second workhorse of CDM's machining capabilities that support their inhouse overmolding program. CDM's comprehensive overmolding capabilities include 3D software mold design, mold manufacturing, plastic injection and end-product final testing. CDM's Turnersville, NJ program complies with the Made in USA standard.

"Having a second VF-2 will increase our machining program's versatility and provide an immediate increase in productivity" said Nick Sarin, Assistant General Manager at CDM, "and the large table size will accommodate any job requirement needed." The automated Haas VF-2 has 3-axis capabilities for one-pass cutting of molds in aluminum and other commonly used molding materials. The unit is also self-contained for optimized finishing productivity and enhanced environmental protection.

About CDM

For almost 30 years, [CDM Electronics](http://www.cdmelectronics.com) has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical [cable assembly](#), including [RF cable assembly](#), [military cable assembly](#), [power cable assembly](#), and box builds. The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office in Richardson, TX.
