### **CDM Electronics Now Stocks Amphenol NEXUS Technologies' Watertight Connectors**

Turnersville, NJ, December 19, 2022... CDM Electronics, an authorized distributor of Amphenol NEXUS Technologies, now stocks that manufacturer's unique watertight interconnects at their Turnersville, NJ location.

Amphenol NEXUS Technologies' watertight connectors are submersible to 6 feet while still maintaining a complete seal of the mating area. The exclusive, molded-on self-cleaning rotary contact design is ideal for harsh environments, making this series a best choice for military, public safety and commercial communications applications. Push/pull breakaway mating is rated for 5000 cycles and is also applicable for missile and ordnance usage.

"The addition of this unique line will round-out CDM's industry-leading tactical communications product mix", said Christina Harrison, Materials Manager at CDM, "and the array of formats and plating options will give this product group added appeal for severe condition applications."

With the inclusion of the Amphenol NEXUS Technologies line, CDM will have a selection of over 300 different tactical communications interconnects available to support virtually every military and public safety radio platform. Combined inventory will have over 80,000 tactical communications connectors in stock at CDM's 130 American Boulevard location.

**About CDM**

For almost 30 years, CDM Electronics has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical cable assembly, including RF cable assembly, military cable assembly, power cable assembly, and box builds. The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office in Richardson, TX.
