Amphenol PCD BL-Series Backshell Banding Adapters Now Available From CDM

Turnersville, NJ, July 18, 2023... CDM Electronics, a full-line authorized distributor of Amphenol PCD interconnects, now has available Amphenol PCD BL-Series of Backshell Banding Adapters to accommodate a wide variety of connectors. The BL-Series is also available in a variety of materials and finishes for multiple applications.

"This new series addresses supply chain issues found with competing brands" said Madeline Gaudreau, CDM Product Manager, "but with just as many options to accommodate most popular connectors. We also plan to maintain inventory of the most widely used adapters" Gaudreau continued, noting that users should keep an eye out on CDM's website for inventory arrivals.

Amphenol PCD's BL banding adapters are usable with most popular connector types including MIL-DTL-38999 series I-IV, MIL-DTL-5015 series I and II, 2M miniature-38999 format and MIL-DTL-26482 series I. Base materials available are aluminum alloy and stainless steel with available finishes including OD Cadmium, electroless nickel, Zinc nickel, Nickel Teflon, anodized and passivated stainless steel. Standard connector usage shell sizes range from 08 to 40, with 2M miniature format shell sizes ranging from 05 to 14. Other finishes and shell sizes are available, contact CDM if there is a unique requirement.

Amphenol PCD is a leader in the design and manufacture of industry standard AS85049 products including mil-spec backshells and accessories at their QPL'd and US military-standard-790 approved production facility.

**About CDM**

For almost 30 years, CDM Electronics has delivered interconnect product and engineered cable assembly solutions to the world's leading aerospace, military, telecom, automotive, industrial, commercial, and alternative energy providers. Renowned for its unsurpassed levels of customer service and support, the company supplies Original Equipment Manufacturers (OEMs) with full lines of standard and specialty connectors including circular, Mil-Spec, DIN, power, PROFIBUS, rectangular, and RF devices. CDM employs documented and controlled systems in its value-added division, which specializes in mission critical cable assembly, including RF cable assembly, military cable assembly, power cable assembly, and box builds. The company's ISO and AS9100 Certified headquarters is in Turnersville, NJ. CDM maintains a regional office in Richardson, TX.
